

A Clean Building Makes A **Lasting First Impression**

We deliver professional cleaning and building maintenance services supported by stringent quality control practices, time-tested processes, tracking and oversight.

We hold the cleanliness of your buildings to a new standard

We Prioritize Your Health and Safety with Green Cleaning Products

To deliver healthy, safe and immaculately clean work environments, Clean Group defaults to green cleaning products. We carefully select non-toxic products that provide the same level of sanitation as traditional options to ensure safety for all individuals who frequent your buildings.

Conscious about sustainability, we also favor products that provide environmental benefits inside and outside of your workplace, such as enhanced air quality, bio-degradability and reduced packaging.

We hold the cleanliness of your buildings to a new standard

**We Geo-Track Our Team to Ensure Punctuality and Building Security
Smart Workforce Monitoring System**

At Clean Group, we take security seriously and work hard to deliver services on time and to the highest possible standard. Our smart workforce monitoring system, geo-tracking capability and labor-saving techniques ensure productivity and create transparency and flexibility for clients and management teams.

In addition, we make ongoing efforts to upgrade and optimize our management strategies and added building security measures while operating well within your budget.

**We hold the cleanliness of your
buildings to a new standard**

**We Hold the Cleanliness of Your
Buildings to a Higher Standard**

In the commercial cleaning industry, where companies are required to meet standard inspection benchmarks, Clean Group raises the bar, holding our cleanliness standards to a higher level. We professionally train every crew member, including with site-specific training for every location type such as health and medical facilities. Beyond that, our advanced workforce management system enables excellence by tracking our productivity and measuring the cleanliness metrics that matter to you.

**We hold the cleanliness of your
buildings to a new standard**

**We're always seeking top talent in
janitorial and building maintenance**

Because we're committed to making our company a rewarding place to work, our compensation and employee recognition practices attract the industry's top talent.

Our mission at Clean Group is to deliver healthy, safe and immaculately clean work environments that enrich the quality of life for employees and clients. We recognize that this mission begins and ends with exceptional employees and we're committed to making our company a rewarding place to work for both management and staff.

As a result, we set high performance standards for the members of our team and support their professional growth
